

1941, 89 local, Navy-trained nurses had graduated from the school.

The Navy Nurse Corps on Guam has also proved to be a critical part of the Navy's humanitarian response efforts in the region. In 1975, Navy Nurses played an important role in "Operation New Life," which brought over 100,000 refugees from South Vietnam to Guam. In 1991, following the eruption of Mount Pinatubo in the Philippines, Guam Navy Nurses supported "Operation Fiery Vigil," which conducted the largest peacetime U.S. military evacuation in history, affecting more than 20,000 military personnel and their families. Guam Navy Nurses also provided immediate, critical care as part of the medical teams that responded to Korean Airline Flight 801, which crashed in Nimitz Hill on Guam in 1997.

Today, with more than 100 Navy Nurses on Guam, the Navy Nurse Corps continues to serve our local community by caring for our active duty service members, retirees, veterans, and their families at the U.S. Naval Hospital Guam, the Branch Clinic, and the VA Community Based Outpatient Clinic. They remain active in the civilian community, serving on various committees and projects, including the Guam Nurses Association, Guam Association of Advanced Practice Registered Nurses, the Guam Diabetes Association, the Guam Lions Club, the American Cancer Society, and the Guam Memorial Hospital Volunteers Association.

On behalf of the people of Guam, I express a sincere un danguko na si Yu'os ma'ase to the men and women of the Navy Nurse Corps for 100 years of exceptional service to our island and community.

IN RECOGNITION OF GAINESVILLE
MAYOR GLENN LOCH'S RETIREMENT

HON. MICHAEL C. BURGESS

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 12, 2011

Mr. BURGESS. Mr. Speaker, I rise today to celebrate Mayor Glenn Loch of Gainesville, Texas. Mayor Loch has served at different times as both a beneficiary and champion of the American dream. In the 1960's, he came to Gainesville for the first time with his wife Helen and their new baby. They had nothing to their name but a mattress, yet with some help from the community and a willingness to work hard, Loch became first councilman and eventually Mayor all in the course of ten years. He is now the longest tenured mayor in Gainesville history, and in his work, endeavors to repay the kindness the community bestowed when he was still a stranger to them.

From the time of his first term in 1974, Gainesville has undergone fantastic transformations. The downtown area, dilapidated after the oil bust of the 1980's, is now, according to Mr. Loch, "second to none." He also kicked off the "Take Pride in Gainesville" campaign. This campaign seeks to clean up Gainesville both "trash-wise" and "crime-wise." Initiatives in this campaign include redesigned frontage roads along both sides of Interstate Highway 35, improving access and traffic flow. Loch has continually sought to help Gainesville remain a place where people

are proud to live, with thriving businesses, jobs that pay well, and an involved community of citizens.

It is this ingenuity that prompted me to partner with Mayor Loch on the Pecan Creek Project. I had noticed the flooding problem in that area for years, and when Mayor Loch asked me to help him by communicating with Congress to appropriate funds for the project, I knew it was important that I take part. Since then, construction for the drainage project is underway. Additionally, Loch oversaw the acquisition of 10,800 acre feet of water rights from Lake Texoma, providing Gainesville with enough water for the next fifty years.

On the threshold of Mayor Loch's retirement, I am pleased to have had the chance to speak for a moment about this inspirational man. His story, as effectively as anyone's, celebrates the true meaning of the American Dream. The American Dream is about taking opportunity by the horns. The American Dream is about working tirelessly to make the most of that opportunity. Most importantly, however, the American Dream is about paying it forward, ensuring that those down the line have the chance to do the same. It's about bringing the dream full circle. On behalf of the 26th District of Texas, I thank Mayor Loch for his service to Gainesville and the citizens of America.

HONORING DOS PUEBLOS HIGH
SCHOOL SCIENCE BOWL

HON. LOIS CAPPS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 12, 2011

Mrs. CAPPS. Mr. Speaker, I rise today in honor of the Dos Pueblos High School Science Bowl Team. Michael Feldman, Daniel Gay, Ilan Goodman, Andy Granatelli, Daniel Richman and their coach Chris Jones made the South and Central Coast proud this month as representatives from California at the 2011 National Science Bowl, sponsored by the US Department of Energy in DC.

The U.S. Department of Energy National Science Bowl is a nationwide academic competition that tests students' knowledge in all areas of science. High school and middle school students are quizzed in a fast paced question-and-answer format similar to Jeopardy. Competing teams from diverse backgrounds are comprised of four students, one alternate, and a teacher who serves as an advisor and coach. The National Science Bowl's high school competition involves more than 13,000 students and is the only science competition in the United States sponsored by a federal agency.

In addition to their academic expertise, these students and their coach proved to be a popular and supportive team in DC. Honored by their peers, the DP team won the Civility Award, which recognizes excellent sportsmanship. In honor of winning this award, the team earned a nine-day trip to Alaska to study the region's glacial, biological and geological treasures.

Mr. Speaker, we speak often in DC of "winning the future." I'm so proud to represent this remarkable group of students, and their coach, who are working tirelessly towards this goal. Today I mark their accomplishment and en-

courage all young people across the country to follow their example, and push themselves in math and science fields. Our competitiveness as a nation depends on it.
